Date of birth: 16 Feb 2002

ABOUT MYSELF

Data Analyst with a dual background in **Computer Engineering** and **Business Intelligence**. I specialize in transforming complex data into strategic insights using **Power BI**,**SQL**, and **Python**. Currently pursuing a master's degree at ISCAP, I am looking to join a dynamic team where I can apply my knowledge to solve real-world problems and grow professionally in the field of data.

EDUCATION & TRAINING

[1 Sep 2025 - Current]

Master in Business Intelligence Analytics

ISCAP - Instituto Superior de Contabilidade e Administração do Porto

City: São Mamede, Porto | **Country:** Portugal | **Level in EQF:** 7

[25 Feb 2025 - 25 Apr 2025]

Power BI Specialist Training (75 Hours)

Inovagaia

[11 Sep 2021 - 25 Jun 2024]

Bachelor in Computer Science

Universidade Lusófona - Centro Universitário Porto

City: Porto | **Country:** Portugal | **Level in EQF:** 6

WORK EXPERIENCE

Shortcut

City: Alfena, Porto | **Country:** Portugal

[1 Jul 2025 - 8 Dec 2025]

Software Developer Trainee

- **Data Visualization:** Built a **Power BI** dashboard to track operational KPIs and client portfolios, driving data-informed decisions.
- **Data Automation:** Developed a **Node.js** pipeline for daily extraction and integration of Iberian energy market data (OMIE).
- **Database Optimization:** Optimized **SQL Server** queries and stored procedures, improving database speed and data reliability.

LANGUAGE SKILLS

Mother tongue(s): Portuguese

Other language(s):

English

LISTENING: C1 **READING:** C2 **WRITING:** C2

SPOKEN PRODUCTION: B2 **SPOKEN INTERACTION:** B2

PROJECTS

Automated Energy Market Data Ingestion (OMIE)

Designed an autonomous daily scheduled process to ingest raw text files from the Iberian energy market into internal systems.

- Handled complex time-series parsing, timezone normalizations, and data validation using Node.js.
- Performed transactional upserts into **SQL Server**, ensuring high fault tolerance and system reliability in a production environment.

Adidas Sales US Analysis

Conducted initial data extraction and cleaning using **SQL** to ensure data integrity.

- Transformed and modeled data with **Power Query**, building a robust Star Schema architecture to optimize DAX query performance.
- Developed an interactive **Power BI** dashboard with advanced UI/UX features (such as dynamic pop-up filter panes) to analyze operating profits, units sold, and geographic distribution.

Gamified Study Portal (PWA)

Identified a lack of tailored, free study platforms and independently developed a **Progressive Web App (PWA)** to generate dynamic quizzes and track academic progress.

- Implemented a robust backend using **Firebase** to manage secure user authentication, cloud-sync study states, and power real-time competitive leaderboards.
- Designed an intuitive, responsive UI with **JavaScript** and advanced **CSS**, supporting interactive question formats (drag-and-drop, text matching) and offline study capabilities.
- Successfully deployed the application, achieving active adoption and positive feedback from university peers as a primary exam preparation tool.

RECOMMENDATIONS

Name: Ana Rodrigues - Senior Consultant at Devoteam (Critical Techworks)

João is a dedicated and highly committed professional. His consistency and perseverance stood out throughout the Power BI training. When someone puts in this level of effort, positive evaluations come naturally.

Name: Luís Paupério - Project Manager at Shortcut

Working with João was a positive experience. I would highlight his willingness to learn, his effort, and the autonomy he demonstrated in implementing a process for collecting and structuring price data from the Iberian energy market (OMIE), enabling new features to be developed in the project.

HOBBIES AND INTERESTS

Puzzle-Based Game Design & Storytelling

Designed and produced a physical puzzle-based game in a book format. This personal initiative combined narrative storytelling with logic challenges and riddles, requiring collaboration and critical thinking. It involved the end-to-end creation of a complete system, from concept and narrative structure to puzzle design and physical production. This reflects a strong passion for problem-solving, structured thinking, and building engaging, complex systems from scratch.
